

SCC QuikBinder™

A ratchet binder like no other !

It's faster to install with the 3-position pawl that offers the user a choice of ratchet extension, ratchet take-up, or a "free-spin" setting for fast adjustment in **either** direction. Secure your load in half the time!

The folding handle makes SCC's QuikBinder™ safer (no handle sticking out) and more convenient to use. Simply fold the handle down after the load is secure or when storing the QuikBinder™ on your cab rack. Just as and more functional than standard ratchet handles.

The QuikBinder™ handle can be locked in the folded position with a long shank padlock, making it tough to tamper with the binder, assembly or the load.

Combination padlocks with programmable combinations are available from SCC.

Available in two popular sizes:

H5125-4158 - 5/16" - 3/8"
(5,400 lb. WLL) for use with 5/16" Transport
or 3/8" High Test assemblies

H5125-4258 - 3/8" - 1/2"
(9,200 lb. WLL) for use with 3/8" Transport
or 1/2" High Test assemblies

SCC CargoBar™

#CC5000

The SCC CargoBar™ is the most versatile loadlock on the market.

- Easier to use, easier to store.
- Up to 20% more holding power than standard loadlocks.
- Adjusts continuously from 48" to 108". Securement range from small truck bed to full high cube trailer width.

High leverage & flexible feet provide superior holding power. Square vs. round tubing provides a stronger bar (less susceptible to bending and more surface area to cargo).

The vinyl coated lever provides smooth, positive operation. Closed bar locking tab is easily unlocked with convenient thumb release.

With optional Track-Lock kit (#CC5015), the SCC CargoBar™ can easily be adapted for use in A & E Track, doubling the front to back holding power of the SCC CargoBar™.

140 SCC CargoBars™ can ship on a standard pallet.

The SCC CargoBar™ can brace a whole load or just part of one.

For trailers with flexible walls ask about SCC's SmartBar™.
